TESTIMONIALS

Thinks WAY OUTSIDE the box... A Role-Model Pioneer to the Future

Dorothy is one of the smartest, most business-savvy people I know. She thinks WAY OUTSIDE the box, which is why many Fortune 100 international businesses took advantage of all the experience and innovation she brings to her clients. As a speaker, Dorothy has dynamic energy, challenging intellect, and sparkling commitment to her audience's enlightenment. She continues to be a role-model pioneer to the future for us all!

- Charlyne Meinhard, NextLevel Consulting

Dorothy Ranks in the Top Tier of Consultants

I have had the opportunity to work with many consultants - you rank in the very top tier. Your ability to clearly understand the goal of the effort, to enable very diverse (and passionate!) groups to see their own roadblocks and to lead these groups to significant improvements in their processes are invaluable talents. Our organization will benefit greatly from this experience.

- James S. MacDonald, Ph.D. Senior VP, pharma R&D, Fortune 20 Company

I Owe My Business Success to Dorothy... We Achieved 30% Growth Last Year

Dorothy is one of the most highly skilled people I know in the area of training and development. The instruction and mentoring that I received from Dorothy resulted in the birth and continued success of my company, with 30% growth last year. I owe my business success to her advice.

- Pamela T. Rambo, Ed.D, Rambo Research and Consulting, LLC

TESTIMONIALS

High Energy, Perspective, and Perseverance

Dorothy infuses her audiences with the high energy, perspective and perseverance she has long used to reach her own goals and overcome obstacles most of either dread or dream of.

- Tom Davidson, *Leadership Nature*

Has the Knack of Pulling Out the Best People Have to Offer

"You have the knack of pulling out the best people have to offer. You manage to layer your course so subtly: theory, practice, application."

- Lisa Andrews, *Director, International Pharma Co.*

Adept at Finding Common Ground Where There Are Disparate Views

Dorothy regularly provides input to a group of distinguished scientists/clinicians and investigators, engaging in discussions of the value of proposed research and providing a patient's perspective. Using her facilitation skills, she is adept at finding common ground where there are disparate views on priorities. Dorothy is, in my personal and professional opinion, the consummate Research Patient Advocate.

- David S. Alberts, M.D., *Professor of Medicine, University of Arizona, Chair, Cancer Prevention and Control Committee, NRG Oncology*

She Helped Determine a Go-forward Plan for Each Participant

As our Strategic Planning Facilitator, Dorothy helped the group work together to determine our goals and define our achievement plan. She provided a structure and process that helped the group identify and discuss the issues as well as determine a go-forward plan for each participant at the close of the meeting. Dorothy created a positive environment in which each participant felt valued for his or her contributions.

- Angela Edwards, *Castle Thunder Consulting*
